Norwich, Monday, March 1, 1909. INTERFERING WITH THE POLICE

There should be no tolerance shown toward men who attempt to prevent a police officer from making an arrest whether they think his conduct is warranted or not.

It has not always been the fashion in the city court to deal with this kind of interference as it should be dealt with. Judge Brown gave the men who assaulted an officer 75 days with costs, which really amounts to three months'

imprisonment.
Leniency in this direction is always misiaterpreted and is in effect a mistried probation and fines for such con-duct on the part of sympathisers and friends, and it had done no good, so the other day he gave an offender for assault on an officer three months in prison. In addressing the court the judge said:

"Perhaps the disorderly element will learn wisdom in this sentence. It makes no difference whether you are Yankee, Irish, French, Pole, Armenian, Greek, or what you are, when you see an officer arresting a man, don't butt in and try to aid the man to cecape or in any way interfere with the officer in the discharge of his duty. If the arrest is an improper one there are ceurts to which you can come and testify to if you want to, but don't get gay with an officer when he is performing his duty as he sees it."

This is the stand for any judge to take under like circumstanes. There is no use of fooling with the vicious. A firm hand, a punishment which means something to them, is the only thing that will do. The public should support a judge in maintaining good order even should be go to greater lengths than this.

THE NEWSPAPER AS AN EVAN-GELIST.

The recent religious revival in Boston, the public print portion of which was in the hands of a thoroughly trained newspaperman, has satisfied many eledgymen not only of its effica-cy, but also that this is a means by which the entire country may yet be rangelized.

The Rev. B. M. Brown of Chicago has this to say to a Boston reporter "Let the newspapers announce that the committee that has been in charge of the Chapman revival campaign will raceive contributions of money to advertise church work. Then let the ommittee get in touch with the advertising men on the newspapers and attorneys can get no vacations. find how much it will cost to run a page, say, of church advertising matter each week. Various kinds of commodities are advertised heavily. If men are told about Christ in the same way many will be saved. Then, after the press has created an interest it will be up to the personal workers to follow up the work. My idea is to keep the interest in this great revival that has just closed to the front by paid advertising. It's a great scheme and one that I know will be a winner every time when tried out in the right

The idea is not to advocate doctrines but to propagate the truth-to present the principles of right living in an interesting, impressive and helpful as long.

This is not the dream of a theorist, for it is a practical way of promoting the spiritual well-being of the people.

OLD AGE PENSIONS.

Cenator Hansborough wants the United States to pay old age pensions, and certain Connecticut people ask that the state place aged school teachers on the penalon roll. So it gooes! All that is really needed to make us all prosperous and more or less con-tented is to have the state pay all of us an annuity of \$1,000 each. What's use of bothering with pensions for a few enty? Let us all in on a good thing. The taxpayer? Oh, forget him! He's practically forgotten, anyhow.—Bristol Press.

We may as well look at this thing rationally, for the trend is apparent-the handwriting is upon the wall. The day of old-age pensions—pensions for all instead of for classes—is right absad of us. Germany has an old-age pensioning system, and England has one, and it is not likely to be many years before America and every other eivilized country will have one. If wisely managed, the cost of it is not likely to fall too heavily upon the taxpayer. The industries and the indus-trial workers of Germany contribute to In effect, this German method makes contributions compulsory upon all who work and in the end it is like money earned and saved—a support they are entitled to. No pensioning system should rest wholly upon property, be a tax upon the prudent and frugal, but should rest upon all and as a matter of fact it will be no great-er a tax than present charitable sys-

PUBLIC UTILITIES.

It looks as if the public utilities bill had been shunted into the blind alley. It was assigned for a hearing on

Now it is not assigned at all.

It has been taken off the list.
It is inid on the shelf.
Dust will collect upon it until it is decided to again present it for public consideration

We are told that several people urged that this bill be laid over for a time as they were not ready to dis-

Who "They" are is not revealed, It is becoming more and more ap-parent that there are "theye" who propess to bury this public utilities bill so deep that it will not hear a call to resurrection during this session of the

general assembly.

Perhaps the bill may be continued

the next gession. If it isn't continued it will be killed absolutely unless public sentiment rallies to its support with a strength more freestatible than opponents of the bill believe possible.—New Haven

This is a measure which raises an-tagonisms as well as doubts and fears. The "theys" who are against it are officers in active business and politi-cal life who fidnk that it is against The "theys" who are against it are others in active business and political life who think that it is against their personal laterasts to have it passed, and citizens who do not be-mondesham Cuffe, fifth Earl of Desart.

W. Bayard Cutting, Jr., just appoint two cups of sugar, five eggs, one can be serviced as social at Milan and is a social laterast to have it mondesham Cuffe, fifth Earl of Desart.

Special Cake.

Two cups of sugar, five eggs, one can be serviced as social cake.

Two cups of sugar, five eggs, one caption of sevent mild, three-fourths of a cup of sugar three-fourths of a cup of butter and lard mixed, four cups of four, two teaspoons of baking possible.

who conscientiously fear the placing in a few hands of so much authority. Is the measure going to pass? If it is given the support which is alleged to be behind it there is no such word as failure; but if the bill can be "shunted into a blind alley" without anything being said—if the "theys" outnumber the influential supporters of the measure, "doomed" may well be written across its face now.

OVERCOMING THE WHITE PLAGUE Governor Lilley says of Gaylord arm: "This institution is one which deserves the most cordial support of every citizen of Connecticut." There seems little doubt but the state will not hesitate to appropriate liberally for this institution this year .- An-

sonia Sentinel. With the present interest in the anti-tuberculosis movement, every gen-uine aid in that excellent business ought to be supported liberally, and doubtless will be. The state can afford to make a fair appropriation for the Gaylord farm, where something has been done, and is still being done, in the matter of overcoming the white plague. Every week we feel more and more certain that the end of the terrible disease will be reached and a scourge under which humanity has hopelessly suffered for ages, will practically cease to exist. Speed the work!—Bridgeport Standard.

This is necessary work, but it is dealing with an effect not a cause. It will not make an end of tuberculosis any more than the anti-toxins have made an end of pneumonia. The place to fight the white plague is in the homes where it originates by removing the cause. Impure air, insufficient sustenance shallow breathing, are the sources of this preventible disease, and the way to prevent it is to pro mote the conditions which make it impossible. Free air in sleeping rooms, deep breathing, baths and the observance of the rules of health will preterminated because these rules will never be universally observed. The family enlightenment and general obervance of the rules of health is the only way of reducing the white plague to the least possible number

EDITORIAL NOTES.

Hetty Greene's son-in-law is 65, and is likely to be tolerant of all her eccentricities

One writer about Roosevelt says that he "writes like a newspaperman and acts like a cyclone."

Another charming combination is the white costume, trimmed with gray, with gray hat and furs.

HOJSEWIFE SUGGESTIONS.

A little kerbsene added to the wash water is said to make the clothes extra white.

To restore discolored twory, paint it with spirits of turpentine and lay it in the sunshine for two or three days.

Save the water in which potatoes have been boiled and use it to wash tarnished brass. It will come out as bright as new.

A delicious salad may be made of grape fruit pulp, white grapes and stalks of romaine, dressed with oil and vinegar and sweetened slightly.

Do not put turnips on to eook in large pieces. It only wastes fuel. Apples cored for baking are delic-

ious filled with orange marmalade and a litle butter and sugar. Chestnuts have considerable food value. The boiled and mashed pulp may be used as one would use meat or

regetables, even croquettes being made A good silence cloth for the dining table can be made with a double thick-ness of white flannel laid with the soft side on the inside and quilted on the roachine; edge with a binding of white

HEALTH AND BEAUTY.

A raw egg swallowed will detact a

People do not realize the value of not water. It will stave off an attack of indigestion. It will check a sudden severe pain, if taken as soon as one feels the attack coming on. It will ward off a nervous headache or eye strain, if the head or eyes are bathed in it and one is careful not to rush right out into the cold.

There is a prejudice that it is some-There is a prejudice that it is some-how childish to go to bed early, even when one has nothing to stay up for; that one is wasting time when the hours before midnight are passed in sleep. Nothing can be more utterly mistaken. One's best sleep may be gotten before midnight, and who would say that a habit which keeps one in good trim and in good spirits is time wasted?

IN THE KITCHEN.

der. Beat butter and sugar together; sometimes mother beats the butter, lard, sugar and eggs together, or you can separate the whites and yolks and half of the ingredients in each part. This will make the two colors of layers and it makes a pretty cake when leed. Add together and bake solid.

Sour Cream Cookies.

Beat one egg light, add one cup of sait, one teaspoon of lemon flavoring, one cup of sour cream, one level teaspoon of soda sifted in one cup of flour, then enough more flour to make a dough that can be rolled out haif an inch thick. The dough should be just as soft as can be handled, and it is best to roll but little at a time or to to make small balls lay on the pan and press out until of the right (hick-ness.

No Egg Cake. Two cups of sugar, two-thirds cup of sweet milk, one-third cup of butter, melted, two cups of flour; into this stir one teaspoon of soda and two of cream of tartar. Mix all together.

Steamed Apples.

Core sound apples, but do not peel them. Put in a baking pan and add a cupful of water to prevent burning. Strew a half cup of granulated sugar over the apples, filling the core hollows with this and adding a little nutmeg if liked. Cover the pan closely and bake until apples are tender, then remove from the pan and boil the water and juice that remains to a syrup, which is poured over the apples. These are delicious.

Escalloped Fish.

Boil a three-pound haddock in salted water for about half an hour or until dore. Scald one and a half pints of milk with one large onion 30 minutes, then remove the onion; mix one large tablespoon of butter and two even tablespoons of flour to a smooth paste, add this paste to the scalded milk and stir until smooth and thick. Flake the whole amount of fish. Butter a baking dish, put in a layer of buttered cracker.

Photographing Lace.

A woman with a piece of real lace which she wished to match saved herself the task of making the rounds of all the stores with K by making prints of it on blue paper such as the photographers use for blue prints. All that was necessary was to stretch the lace on the paper and expose it to the sun. These prints she malled to the various stores, and in one them found her lace

Dirt Retards Oven. If the oven does not bake so well as you think it ought, just take a moment to see if there is not an accumulation of ashes in the stove just over the oven. This often is the cause of great loss of heat.

Embroidered Towels. The fashion of embroidering one end of the linen towel more elaborately than the other seems to be gaining in favor. Frequently the monogram or initials are added to the end boasting of the greater amount of handswork.

Creamed Roast Veal. A very fine chafing dish recipe is for creamed roast veal. Make a cream sauce as for creamed oysters, add the yeal cut into dice and season to taste.

To Clean Teapot. If the teapot is discolored, boil a short time in a strong solution of berax. Nothing is better than borax to clean stained tinware.

Backs of Gowns Need Attention. These are the days when in theory it matters little whether one has a fair face or one which would curille

milk.

The back is the thing.

Nowadays all the care goes to the back and the gown; to be pronounced total successes, one must have a fine apeurance from the rear.

Which condition ied an enthusiastic debutante to say to her hostess, who was wearing an extraordinarily handsome Empire robe: "Oh, your gown is just too lovely in the back! I just love to see you go out of the room." love to see you go out of the room."

The principal care is bestowed on the hair in the back, and ultra women have the pendants of the neck chains

in the rear.

The face certainly is neglected, theoretically, and the expression to be correct must resemble a brass image of Buddha in its impossibility.

Optical Husion. When hanging curtains which are draped in a low room, put the cornice to which the curtains are to be fastened close to the ceiling, even it the window is lower down, as it gives the effect of greater height to the room. The curtains meeting at the top will conceal the wall.

HOME GARMENT MAKING. The Bulletin's Pattern Service.

CHILD'S DRESS. Paris Pattern No. 2762 - All Seams Allowed.

Allowed.

Three narrow tucks on each shoulder at the front and back, stitched down to yoke depth, give the Foquirad fullness to the skirt extension, which is finished with a deep hem. This full body portion is gathered to a shallow square yoke at the center of the front and back, which is stamped with some appropriate design and hand-embroidered with white mercestized cotton, or, if preferred, this yoke may be made of allover lace or embroidery, according to taste. Two narrow insertions of either lace or embroidery, hide the joining of the yoke and body portion, and if desired, the material may be cut from underneath. A row of similar insertion trims the skirt above the hem, and this also should have the material cut from underneath. as should the bands on the long or short sleeves, whichever are used. A deep inverted plait at the under-arm seam gives an added fullness to the skirt extension, and the dress may be developed, to advantage in chambray, then, duck or Victoria laws, for morning wear, embroidery being used instead of lace; or bands of the material hand-embroidered in white, which is the latest and most fashionable trimming for the small sir's clothes.

The pattern is in four sizes—4; to 5 years. For 2 child of 2 years the dress requires 2% yards of material 27 inches wide, 2 yards 26 inches wide or 1½ yards 42 inches wide; 25 yards of insertion.

Price of pattern, 10 cents.
